The INTENSIVE barrel cleaner combines the advantages of the VFG COMFORT barrel cleaner made of wool felt with those of the bronze brush or steel wool and is therefore highly abrasive, elastic and absorbent. The INTENSIVE barrel cleaner guarantees even more efficient cleaning on the inside of the barrel or inside the cartridge chambers in revolver drums. This means that you clean without cleaning brushes, steel wool or similar highly abrasive cleaning tools. With the VFG barrel cleaner INTENSIVE you can be sure that, thanks to the optimally coordinated caliber size, material density and elasticity, that they really go deep into the Trains of the fields and will absorb all the dirt particles thanks to their porous surface structure - not as with brushes, who only move the dirt alongside itself in the barrel while running.
