The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

MDT ACC Chassis System Kit CZ 455, 457 Safety Instruction Guide

Introduction

Thank you for choosing the MDT ACC Chassis System Kit for your CZ 455, 457. This guide provides essential safety instructions and guidelines to ensure the safe and effective use of this product. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure that the product is used in accordance with all local laws and regulations.
- Always handle firearms and accessories with care and respect, treating them as if they are loaded.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage before each use.
- Follow all manufacturer guidelines regarding the use of the chassis system with compatible firearms.

Specific Safety Precautions for Use

- Always wear appropriate eye and ear protection when using firearms.
- Ensure that the chassis is securely attached to the firearm before use.
- Be aware of your surroundings and ensure a safe shooting environment.
- Do not exceed the maximum weight limit of the chassis system (5.6 kg without accessories).
- Use only AICS style magazines that are compatible with the chassis system.
- Ensure that all weights added to the chassis are securely fastened to avoid accidents during use.
- Do not modify the chassis system in any way that could compromise its safety or functionality.

Instructions for Installation and Usage

1. Installation of the Chassis:

- Begin by removing the existing stock from your CZ 455 or 457 rifle.
- Align the MDT ACC Chassis with the action of the rifle.
- Secure the chassis to the action using the provided screws and tools, ensuring a tight fit.
- Check that the chassis is properly attached and does not wobble.

2. Weight Management:

- To adjust the weight and balance, add or remove weights from the buttstock, interior forend, or exterior forend.
- Ensure that any added weights are securely fastened.
- Regularly check the weights for tightness during use.

3. Using the MDT Elite Grip:

- The MDT Elite Grip is designed for comfort and control. Ensure it is properly attached to the chassis.
- Adjust the grip angle if necessary to suit your shooting style.

4. Magazine Compatibility:

- Use only AICS style magazines, which can be purchased separately.
- Ensure that the magazine is properly seated in the chassis before attempting to fire.

5. **PostUse Care:**

- After use, clean the chassis and firearm to prevent corrosion and wear.
- Store the chassis in a safe and secure location, preferably in a locked cabinet.

Disposal Instructions

- Dispose of any packaging materials responsibly, following local recycling guidelines.
- When disposing of the chassis system, follow local regulations regarding the disposal of metal and plastic products.
- Ensure that any firearms or components are disposed of in a safe and legal manner.
