The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

MDT ACC Chassis System Safety Instruction Guide

Introduction

Thank you for choosing the MDT ACC Chassis System Kit Savage. This guide provides essential safety instructions to ensure the safe and effective use of your product. Please read through this guide carefully before installation and usage.

General Safety Guidelines

- Ensure that the product is used in accordance with the manufacturer's instructions.
- Always handle firearms and related accessories responsibly.
- Keep the chassis system away from children and unauthorized users.
- Regularly inspect the chassis for any signs of wear or damage.
- Do not exceed the maximum weight limit of 5.6 kg for the chassis alone.
- Ensure that all accessories are securely attached to prevent accidental detachment during use.
- Report any unsafe conditions or incidents to the relevant authorities.

Specific Safety Precautions for Use

- **Weight Management:**
 - Be mindful when adding weights to the chassis. Ensure that the total weight does not exceed recommended limits.
- **Installation:**
 - Follow all installation instructions carefully to avoid improper assembly, which could lead to malfunction.
- **Compatibility:**
 - Use only AICS style magazines that are compatible with the Savage 338 Lapua to ensure proper function.
- **Adjustability:**
 - Make adjustments to the chassis only when it is not in use to prevent accidents.
- **Shooting Environment:**
 - Always use the chassis in a safe shooting environment, following local laws and regulations.

Instructions for Installation and Usage

1. Unpacking the Chassis:

- Carefully remove the chassis system from the packaging.
- Inspect all components for damage or missing parts.

2. Installation:

- Attach the MDT Elite Grip to the chassis using the provided screws.
- Install the adjustable stock using the MDT's proprietary XTN buttstock interface.
- Ensure that all screws and attachments are tightened securely.

3. Weight Adjustment:

- Add weights to the buttstock, interior forend, or exterior forend as desired.
- Ensure that the added weights are securely fastened.

4. Magazine Compatibility:

- Insert the AICS style magazine into the chassis to ensure a proper fit.
- Verify that the Savage 338 Lapua requires MDT 3.85" magazines.

5. **Final Checks:**

- Before use, doublecheck that all components are securely attached and that the chassis is stable.
- Adjust the weight and balance point as needed for optimal performance.

Disposal Instructions

- Dispose of any packaging materials in accordance with local recycling regulations.
- When disposing of the chassis or any components, follow local laws regarding electronic waste and materials.
- Do not dispose of the product in general waste; instead, use designated disposal facilities.

Contact Information for Further Support

For any questions or concerns regarding the MDT ACC Chassis System, please contact your local retailer or refer to the manufacturer's website for support resources. Ensure you have the product details ready for a more efficient response.

By following these safety instructions, you can ensure a safer and more enjoyable experience with your MDT ACC Chassis System. Thank you for your attention to these important guidelines.
