The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

MDT ACC Chassis System Kit Safety Instructions

Introduction

Thank you for choosing the MDT ACC Chassis System Kit for your Savage 338 Lapua Magnum. This guide provides essential safety instructions to ensure your safe and effective use of the product. Please read this manual thoroughly before installation and use.

General Safety Guidelines

- Always follow local laws and regulations regarding firearm use and ownership.
- Ensure that the chassis system is compatible with your specific rifle model before installation.
- Inspect the product for any visible damage or defects before use. If damaged, do not use the product.
- Keep the chassis system and all associated components out of reach of children and unauthorized users.
- Use the product only for its intended purpose and in accordance with the manufacturer's instructions.
- Always handle firearms with care and treat every firearm as if it is loaded.
- Store the chassis system and your firearm in a secure location to prevent unauthorized access.

Specific Safety Precautions for Use

- Ensure that all weights are securely attached before use to avoid accidents during operation.
- Be aware of the added weight when adjusting the chassis system. The total weight can reach up to 14 kg with accessories.
- When using the adjustable core, make sure to follow the manufacturer's guidelines to prevent instability.
- Always check that the ARCA/RRS dovetail accessories are properly secured before use.
- Use only MDT's proprietary XTN buttstock interface with the included adjustable stock.
- Ensure that the chassis is properly mounted to your action, barrel, and scope to avoid any operational issues.

Instructions for Installation and Usage

1. Installation of the Chassis

- Remove the existing stock from your Savage 338 Lapua Magnum.
- Align the MDT ACC Chassis with the action and ensure it fits properly.
- Secure the chassis to the action using the provided screws. Ensure all screws are tightened to the manufacturer's specifications.

2. Weight Adjustment

- Identify the locations for weight addition: buttstock, interior forend, or exterior forend.
- Select the desired weights (interior forend weights, exterior MLoc weights, and buttstock weights) and attach them securely.
- Adjust the weights to achieve your preferred balance point.

3. Accessory Attachment

- Use the 17" ARCA/RRS dovetail to attach any compatible accessories.
- Ensure that the retention screw is tightened to prevent accessories from falling off during use.

4. Magazine Compatibility

- Use MDT 3.85" magazines for the Savage 338 Lapua.
- Ensure that the magazine is securely inserted before operating the firearm.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- When disposing of the chassis system or any associated components, ensure they are disposed of in an environmentally friendly manner.
- If the product is no longer usable, consider recycling materials where possible.

Contact Information for Further Support

For any questions or concerns regarding safety or product use, please contact the manufacturer or your local authorized dealer. Always ensure that you have the latest safety information and product updates.

Thank you for your attention to these safety instructions. Your safety and the safety of others depend on responsible use and handling of your MDT ACC Chassis System Kit.
