

# ACC Chassis System Kit Ultimatum Deadline - MDT ACC Chassis System Ultimatum Deadline SA RH Blue

[Rifle Parts](#) > [Stock Parts](#) > [Rifle Stocks](#)

The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

NO IMAGE  
AVAILABLE

- 17" of available ARCA/RRS dovetail, with retention screw so that accessories don't fall off mid-stage.
- Comes with the MDT Elite Grip.
- Uses MDT's proprietary XTN buttstock interface (adjustable stock included).
- Compatible with AICS style magazines (sold separately).
- Interior forend weights, exterior M-Lok weights and buttstock weights available.

# MDT ACC Chassis System Safety Instructions

## Introduction

Thank you for choosing the MDT ACC Chassis System Kit Ultimatum Deadline SA RH Blue. This product is designed for competitive shooting and offers an adjustable weight management system. To ensure safe and effective use of your chassis system, please read and follow these safety instructions carefully.

## General Safety Guidelines

- Always ensure the product is used in a safe environment, free from distractions and hazards.
- Regularly inspect the chassis system for any signs of wear or damage before each use.
- Keep the product out of reach of children and unauthorized users.
- Follow all local laws and regulations regarding the use of firearms and shooting accessories.
- Report any unsafe conditions or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the chassis is properly assembled and all components are securely attached before use.
- Adjust the weight management system according to your shooting preferences, but do not exceed the maximum weight limit of 5.6 kg for the chassis alone.
- Use only AICS style magazines that are compatible with the chassis system.
- When adding weights to the buttstock or forend, ensure they are securely fastened to prevent them from falling off during use.
- Always use the MDT Elite Grip while handling the chassis to maintain a secure hold.
- Be cautious when adjusting the chassis system during use, as sudden movements can lead to accidents.

## Instructions for Installation and Usage

### 1. Unboxing and Inspection

- Carefully remove the chassis system from the packaging.
- Inspect all parts for damage or defects before assembly.

### 2. Assembly of the Chassis

- Attach the MDT Elite Grip to the chassis.
- Ensure the XTN buttstock interface is securely connected to the chassis.

### 3. Adjusting Weights

- Select the appropriate weights based on your shooting preferences.
- Add weights to the buttstock, interior forend, or exterior forend as needed.
- Securely fasten all weights using the provided retention screws to prevent movement during use.

### 4. Compatibility Check

- Confirm that your action, barrel, and scope are compatible with the chassis system.
- Ensure that the AICS style magazine is inserted correctly and functions properly.

### 5. Final Safety Check

- Before use, perform a final inspection to ensure all components are secure and functioning correctly.
- Make sure the area is clear of obstacles and bystanders before beginning your shooting session.

## **Disposal Instructions**

- Dispose of the chassis system and any associated components in accordance with local waste disposal regulations.
- If the product is no longer usable, consider recycling any aluminum parts where possible.

## **Contact Information for Further Support**

For any inquiries or concerns regarding the MDT ACC Chassis System, please consult the appropriate customer support channels available in your region.
