The rifle (system) and scope shown in the picture are not for sale and are not included. Only the chassis is included in the delivery.

The ACC (Adjustable Core Competition) Chassis was created with an integrated weight management system, allowing shooters to fine tune the weight and balance point of the rifle. The adjustability comes from a series of weights that can be added to either the buttstock, interior forend or exterior forend. It's original weight of 2,7 kg transforms into a maximum of 5,6 kg (chassis only - add on your action, barrel, scope and accessories and most shooters are pushing 12-14 kg in the ACC).

MDT ACC Chassis System Safety Instruction Guide

Introduction

Thank you for choosing the MDT ACC Chassis System Kit Ultimatum Deadline. This guide provides important safety information and instructions to ensure the safe and effective use of your chassis system. Please read this manual carefully before installation and usage.

General Safety Guidelines

- Ensure the product is used in accordance with the manufacturer's instructions.
- Always inspect the chassis system before use for any signs of damage or wear.
- Keep the chassis system out of reach of children and vulnerable individuals.
- Use appropriate protective gear when handling firearms and accessories.
- Be aware of your surroundings when using the chassis system to prevent accidents.
- Report any unsafe conditions or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Weight Management:** The adjustable weight system allows for customization. Ensure weights are securely attached to avoid shifting during use.
- **Compatibility:** Only use AICS style magazines and accessories specified by the manufacturer to ensure proper fit and function.
- **Installation of Weights:** Follow the manufacturer's guidelines for adding weights to the buttstock and forend. Improper installation may affect balance and control.
- **Retention Screw:** Always check that the retention screw on the ARCA/RRS dovetail is tightened before use to prevent accessories from falling off.
- **Adjustable Stock:** Ensure the MDT's proprietary XTN buttstock interface is securely attached to prevent disconnection during use.

Instructions for Installation and Usage

1. Assembly:

- Remove all components from the packaging.
- Refer to the assembly diagram included with the product for visual guidance.

2. Weight Adjustment:

- Identify the location for weight addition (buttstock, interior forend, or exterior forend).
- Select the appropriate weights and securely attach them using the provided tools.
- Adjust the weight distribution according to personal preference for optimal balance.

3. Attaching Accessories:

- Use the provided ARCA/RRS dovetail to attach accessories.
- Ensure the retention screw is tightened to prevent accessories from detaching during use.

4. Using the Chassis System:

- Ensure the rifle is unloaded before handling.
- Mount the rifle securely in the chassis, ensuring all components are properly aligned.
- Adjust the MDT Elite Grip and XTN buttstock to your preferred position for comfort and control.

5. PostUse Check:

- After each use, inspect the chassis system for any signs of wear or damage.
- Store the chassis system in a safe, dry place away from direct sunlight and moisture.

Disposal Instructions

- Dispose of the chassis system in accordance with local regulations.
- Do not dispose of the chassis system in household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support
