

SEATER WITH CRIMP FOR RIFLE CALIBERS - TRIEBEL Seater with Crimp 6.5x55 SE - 7/8"

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

Specs:

- Thread: 7/8"

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for TRIEBEL Seater with Crimp for Rifle Calibers

Introduction

Thank you for choosing the TRIEBEL Seater with Crimp for Rifle Calibers. This product is designed to assist in the precise seating of bullets for 6.5x55 SE cartridges. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

General Safety Guidelines

- Ensure that the product is used according to the manufacturer's instructions.
- Always wear appropriate safety gear, including eye protection, when using reloading equipment.
- Keep the product out of reach of children and unauthorized users.
- Regularly inspect the product for any signs of wear or damage. Do not use if damaged.
- Store the product in a dry, cool place to prevent corrosion or deterioration.
- Be aware of your surroundings and ensure that the area is clear of distractions when using this product.

Specific Safety Precautions for Use

- Do not exceed the recommended load specifications for your firearm.
- Ensure that the cartridge case is clean and free from obstructions before seating the bullet.
- When crimping, apply pressure gradually to avoid damaging the bullet or cartridge case.
- Always doublecheck that the correct seaterhead is installed for the bullet being used.
- Avoid using the product in wet or humid conditions to prevent rust.
- If you experience any malfunctions or issues, stop using the product immediately and consult the manual for troubleshooting.

Instructions for Installation and Usage

1. Installation of the SeaterHead:

- Unscrew the existing seaterhead from the die.
- Select the appropriate seaterhead for your bullet type.
- Screw the new seaterhead securely into place, ensuring it is tightened properly.

2. Seating the Bullet:

- Prepare your cartridge case by ensuring it is clean and free from debris.
- Insert the cartridge case into the die.
- Place the bullet on top of the cartridge case.
- Slowly pull the handle to seat the bullet into the case. Ensure the bullet is seated to the desired depth.

3. Applying Crimp (if required):

- Adjust the die to apply the desired crimp to the mouth of the cartridge case.
- Gradually pull the handle to apply the crimp, checking for proper seating and crimping.

4. Final Inspection:

- After seating and crimping, visually inspect the cartridge to ensure that the bullet is seated correctly and that the crimp is uniform.

Disposal Instructions

- Dispose of any unused or damaged components in accordance with local regulations.
- Do not dispose of the product in regular household waste. Check with local waste management for proper disposal methods.

Contact Information for Further Support

For any inquiries or assistance regarding the TRIEBEL Seater with Crimp, please refer to the manual for further guidance and support.

By adhering to these safety instructions, you can help ensure a safe and effective reloading experience with the TRIEBEL Seater with Crimp for Rifle Calibers. Always prioritize safety and consult the manual for any questions or concerns.
