

# DeathGrip Infinite Carbon Fiber

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

Compounding on the overwhelming success of the original DeathGrip tripods, BOG took on the unenviable task of making the world's best tripod even better. As you'd expect from BOG, we went out and did it. The DeathGrip Infinite series is designed as multi-functional tripod platform, utilizing a quick-change system on top of a glass-smooth ball head mount, making it perfect for glassing and shooting. Couple this with a proprietary DeathGrip clamping system and a weight that is comparable to tripods up to 4 times its price and you have the best tripod ever made (again).

# BOG DeathGrip Infinite Tripod Safety Instructions

## Introduction

Thank you for choosing the BOG DeathGrip Infinite Tripod. This guide provides important safety information, usage instructions, and maintenance tips to ensure your product operates safely and effectively. Please read this document carefully before using your tripod.

## General Safety Guidelines

- Ensure that the tripod is stable and secure before placing any equipment on it.
- Avoid using the tripod in high winds or unstable ground conditions.
- Regularly inspect the tripod for any signs of wear or damage before each use.
- Keep the tripod away from children and pets to prevent accidents.
- Do not exceed the weight limit specified in the product manual to avoid tipping or breaking.
- Use the tripod only for its intended purpose as a support platform for optics and shooting equipment.

## Specific Safety Precautions for Use

- Always doublecheck the clamping system before use to ensure that your equipment is securely attached.
- When adjusting the height of the tripod, ensure that all locks are securely fastened to prevent collapse.
- Be cautious when using the tripod on uneven terrain. Adjust the legs carefully to maintain stability.
- If using the tripod for shooting, ensure you are in a safe environment and follow all firearm safety regulations.
- Avoid placing the tripod near water or in environments where it could be submerged.

## Instructions for Installation and Usage

### 1. Unpacking the Tripod

- Carefully remove the tripod from its packaging.
- Inspect for any visible damage or missing parts. If any issues are found, do not use the tripod.

### 2. Setting Up the Tripod

- Extend the legs to your desired height. Ensure each leg is locked securely in place.
- Adjust the ball head mount to achieve the desired angle for your equipment.

### 3. Attaching Your Equipment

- Use the proprietary DeathGrip clamping system to securely attach your optics or shooting equipment.
- Ensure that the equipment is firmly clamped and doublecheck the grip before use.

### 4. Using the Tripod

- Once your equipment is attached, verify that the tripod is stable.
- If you need to make adjustments, do so carefully to avoid losing balance.

### 5. Dismantling the Tripod

- After use, carefully detach your equipment from the tripod.
- Collapse the legs and store the tripod in a safe, dry place.

## **Disposal Instructions**

- When disposing of the tripod, follow local regulations for waste disposal.
- If the tripod is damaged beyond repair, consider recycling the carbon fiber material if possible.
- Do not dispose of the tripod in regular household waste.

## **Contact Information for Further Support**

For any questions or concerns regarding the BOG DeathGrip Infinite Tripod, please refer to the manufacturer's website or customer service for assistance. Always ensure that you have the product's model information available when seeking support.

Thank you for your attention to these safety guidelines. Enjoy using your BOG DeathGrip Infinite Tripod!
