

1.5-6x42mm Illuminated 7.62 CX5456 Ballistic Black

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The ELCAN SpecterDR Dual Role Optical Sight is amongst the best optical rifle scopes on the market and extremely popular among defense, security, and sporting markets for long range precision and OEM mounting solutions. The ELCAN SpecterDR 1.5x/6x is the second evolution in the family of Dual Role Optical Sights. Based upon the battle-proven design, the SpecterDR provides higher magnification to enable greater precision and longer engagement ranges, while at the same time providing exceptional field of view in CQB mode. Crosshair illumination: 5 settings, AN/PVS-22 night vision compatible Red dot illumination: 5 settings, AN/PVS-22 night vision compatible Reticle: dual-thickness ballistic crosshair with user-selectable red dot and VSOR rangefinder Aiming dot diameter: 1.5 moa at 6x, 6 MOA at 1.5x Adjustment resolution: .5 minute of angle Adjustment range: 120 minutes of angle The SpecterDR 1.5x/6x enjoys ELCAN's famous crystal-clear optics as well as a generous eye relief, making it the ideal instrument for designated marksman rifles and other long range applications. As with all SpecterDR sights, the magnification and field of view can be changed instantly with the throw of a lever. Depending upon the situation, the user may adjust the sight to illuminate the crosshair or just a brilliant red dot in the center. Because the reticles are etched in glass, they are plainly visible even in the case of loss of electrical power due to battery failure or EMP.

ELCAN 1.56x42mm Illuminated 7.62 CX5456

Ballistic Safety Instruction Guide

Introduction

Thank you for choosing the ELCAN 1.56x42mm Illuminated 7.62 CX5456 Ballistic Optical Sight. This guide provides essential safety instructions and recommendations to ensure the safe and effective use of this product. Please read and follow these guidelines carefully.

General Safety Guidelines

- **Product Safety:** Always ensure that the optical sight is used in accordance with the manufacturer's instructions to avoid risks associated with improper use.
- **Enhanced Recalls:** Stay informed about any product recalls. Should a recall occur, follow the instructions provided by the manufacturer for safe returns or remedies.
- **Online Shopping:** When purchasing online, ensure that the seller complies with EU safety requirements to guarantee the product's safety.
- **Special Consumer Focus:** Extra care should be taken when using this product around vulnerable groups, such as children. Keep the product out of reach when not in use.
- **EU Contact Point:** For any safety inquiries or concerns, refer to the contact information provided by the retailer or manufacturer.
- **Rapid Alerts:** Monitor the EU Safety Gate platform for updates on unsafe products, including this optical sight.

Specific Safety Precautions for Use

- **Age Restrictions:** This product is intended for use by individuals aged 18 and older. Ensure that minors do not handle the device without adult supervision.
- **Proper Handling:** Always handle the optical sight with care. Avoid dropping or striking the device, as this may cause damage or misalignment.
- **Battery Safety:** Use only the specified 1/3N Lithium battery. Incorrect battery types may cause damage or pose a safety hazard.
- **Illumination Settings:** Familiarize yourself with the illumination settings before use. Adjust brightness according to the environment to avoid glare or distraction.
- **Field of View Awareness:** Be aware of your surroundings while using the sight, especially in crowded or dynamic environments.
- **Reticle Visibility:** The reticle is etched in glass and remains visible even without power. However, ensure that the sight is properly adjusted for optimal clarity.

Instructions for Installation and Usage

Installation

1. Mounting the Sight:

- Ensure the rifle is unloaded and pointed in a safe direction.
- Select a compatible mounting system for your rifle.
- Securely attach the optical sight to the mounting system, following the manufacturer's guidelines for torque specifications.

2. Adjusting the Sight:

- Once mounted, check the alignment of the sight with the rifle's barrel.

- Use the adjustment controls to calibrate the sight according to your shooting preferences.

Usage

- **Switching Between Magnifications:**
 - Use the lever to instantly change between 1.5x and 6x magnification as needed.
- **Illumination Adjustment:**
 - Set the crosshair or red dot illumination using the five available settings based on your environment.
- **Aiming:**
 - Align the reticle with your target while maintaining a stable shooting position.
 - Adjust your stance as necessary to ensure a clear field of view.

Disposal Instructions

- **Battery Disposal:** Dispose of used batteries in accordance with local regulations. Do not throw batteries in regular household waste.
- **Product Disposal:** When the optical sight reaches the end of its life, dispose of it in compliance with local electronic waste disposal regulations. Do not dispose of it in regular trash.

Contact Information for Further Support

For any inquiries or support regarding the ELCAN 1.56x42mm Illuminated 7.62 CX5456 Ballistic Optical Sight, please refer to the contact details provided by your retailer or the manufacturer.

By following these safety instructions, you can ensure a safe and effective experience with your ELCAN optical sight. Thank you for your attention to these important guidelines.
