

REM700 DIAMOND - TWO STAGE - RIGHT - NO BOLT RELEASE - TRIGGERTECH Rem700 Diamond - Two-Stage - Right - No bolt release - Pro Curved (PVD Black)

[Rifle Parts](#) > [Triggers Parts](#) > [Triggers](#)

Material Details

1. Housing: 7075 Aluminum (anodized)
2. Key Components: 440C Stainless Steel
3. PVD Black - PVD stands for Physical Vapour Deposition. It is a hard and durable coating that is applied to external stainless components to give them a clean black color.

Description

Our most complex and technologically advanced trigger yet. Developed with the same unmatched zero-creep break, tactile pull weight adjustment (on both stages), rugged design, and no compromise engineering. Our focus on safety led us to develop the first Rem 700 trigger with four points of safety. This is a new level of performance and safety for those who prefer some movement before the wall. Four points of safety:

4. Ticker Blocker - prevents the ticker from moving while on safe.
5. Sear Blocker - prevents the sear from dropping while on safe.
6. First-Stage Lockout - the tumbler locks out the first stage while on safe. The first-stage will not move while on safe, giving the shooter immediate confirmation that the safety is engaged.
7. First-Stage Safety - even when on fire the first-stage blocks the ticker until the first-stage is actuated.

The adjustment feature utilizes externally accessible set screw for both stages. Due to the exceptionally crisp break the activation energy is less than friction-based triggers. Most shooters report the pull weights feeling significantly lighter than a friction-based trigger of the same measured weight. The triggers components are assembled as a matched set to enable a true zero-creep break, extremely short overtravel and offers outstanding reliability, even in the harshest environments. Frictionless Release Technology™, along with hardened 440C stainless steel internal components ensure corrosion resistance and an extended service life. As Frictionless Release Technology™ does not rely on coating, polishing or lubricating the key engagement surfaces, trigger pulls will be more consistent from shot to shot and after thousands of shots more than you ever thought possible.

Attributes

- Name: [TRIGGERTECH Rem700 Diamond - Two-Stage - Right - No bolt release - Pro Curved \(PVD Black\)](#)
- Manufacturer: [TRIGGERTECH](#)
- Product no.: EU2010036
- Mfr. No.: R70-TGB-02-TNP
- Model: 700
- Style: Adjustable, Curved
- Weapon type: Remington
- Delivery weight: 0.14kg

TRIGGERTECH REM700 DIAMOND TWO STAGE RIGHT NO BOLT RELEASE TRIGGER Safety Instruction Guide

Introduction

Thank you for choosing the TRIGGERTECH REM700 DIAMOND TWO STAGE RIGHT NO BOLT RELEASE TRIGGER. This guide provides essential safety instructions and guidelines to ensure safe and effective use of your trigger. Please read this manual thoroughly before using the product.

General Safety Guidelines

- Always treat the trigger as if it is loaded, even if you believe it is not.
- Keep the trigger and all firearms out of reach of children and unauthorized users.
- Ensure that you are in a safe environment when handling the trigger and firearm.
- Always wear appropriate eye and ear protection when using firearms.
- Familiarize yourself with the operation of your firearm and the trigger before use.
- Regularly inspect the trigger and firearm for any signs of wear or damage.
- Follow all local laws and regulations regarding firearm usage and safety.

Specific Safety Precautions for Use

- **Ticker Blocker:** This feature prevents the ticker from moving while the safety is engaged. Always ensure that the safety is on before handling.
- **Sear Blocker:** This component prevents the sear from dropping while on safe. Confirm that the safety is engaged before loading or unloading.
- **FirstStage Lockout:** The tumbler locks out the first stage while on safe, ensuring no movement occurs. This provides immediate confirmation that the safety is engaged.
- **FirstStage Safety:** Even when the trigger is on fire, the firststage blocks the ticker until the firststage is actuated. Ensure that you understand how this feature operates before use.

Instructions for Installation and Usage

1. Installation:

- Ensure that the firearm is unloaded and pointed in a safe direction.
- Remove the existing trigger from the firearm according to the manufacturer's instructions.
- Install the TRIGGERTECH REM700 DIAMOND trigger by following the specific installation instructions provided with the product.
- Ensure that all components are securely fastened and that there are no loose parts.

2. Usage:

- Before using the trigger, familiarize yourself with its features, including the adjustment for pull weight.
- Adjust the pull weight using the externally accessible set screw for both stages. Make small adjustments and test the trigger to find the desired pull weight.
- Always check the functionality of the trigger in a safe environment before actual use.
- Practice using the trigger to become accustomed to its feel and operation.

Disposal Instructions

- Dispose of the trigger according to local regulations and guidelines for hazardous materials.
- If the trigger is damaged or no longer functional, contact your local waste management authority for proper disposal methods.
- Do not dispose of the trigger in regular household waste.

Contact Information for Further Support

For any safety inquiries or support related to your TRIGGERTECH REM700 DIAMOND trigger, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

By following these safety instructions and guidelines, you can ensure a safe and enjoyable experience with your TRIGGERTECH REM700 DIAMOND TWO STAGE RIGHT NO BOLT RELEASE TRIGGER. Always prioritize safety and compliance with local laws when handling firearms. Thank you for your attention to these important safety measures.
