

Rails - 20 MOA - SAUER 100/101 - MAUSER M18 (REM700)

[Rifle Parts](#) > [Forend & Handguard Parts](#) > [Handguard & Rail Accessories](#) > [Accessory Rails](#)

MDT's Scope Base Picatinny Rails are a precise and reliable solution when it comes to mounting a scope on your bolt action rifle.

MDT's Scope Base Picatinny Rails are designed to make the mounting of your optics easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The underside of the rails are profiled to allow the rail to be mounted flush on the receiver and to match the geometry of the ejection port. These rails are designed with a 30 MOA incline providing additional elevation adjustment from your scope*. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

MDT Scope Base Picatinny Rails Safety Instruction Guide

Introduction

Thank you for choosing the MDT Scope Base Picatinny Rails, designed for your bolt action rifle. This guide provides essential safety instructions and information to ensure safe and effective use of the product. Please read this guide carefully before installation and use.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as specified in this guide.
- Always handle firearms responsibly and in accordance with local laws and regulations.
- Inspect the product for any damage or defects before installation. Do not use if damaged.
- Keep the product out of reach of children and unauthorized users.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- Do not exceed the weight limit of the rail when mounting optics.
- Ensure that the rail is securely fastened to prevent any movement during use.
- Always check the alignment of your scope after installation to ensure proper sighting.
- Avoid using the product in extreme weather conditions, which may affect the performance.
- If you experience any unusual behavior or instability while using the product, discontinue use immediately.

Instructions for Installation and Usage

1. Tools Required:

- Appropriate screwdriver or torque wrench.
- Allen wrench (if applicable).

2. Installation Steps:

- Ensure that your rifle is unloaded and pointed in a safe direction.
- Remove any existing scope bases from the rifle receiver.
- Clean the receiver surface to remove any debris.
- Align the MDT Scope Base Picatinny Rail with the mounting holes on the receiver.
- Insert screws provided with the rail into the mounting holes.
- Tighten the screws to the manufacturer's recommended torque specifications (usually found in the product manual).
- Verify that the rail is securely attached and does not move.

3. Scope Mounting:

- Mount your scope onto the Picatinny rail according to the scope manufacturer's instructions.
- Ensure that the scope is level and properly aligned with the rail.
- Tighten the scope rings securely, but avoid overtightening which may damage the scope.

4. PostInstallation Check:

- After installation, perform a function check of the rifle and scope.

- Ensure that the ejection port is unobstructed and that the rail is flush against the receiver.

Disposal Instructions

- Dispose of the product in accordance with local regulations for electronic and metal waste.
- Do not dispose of the product in regular household waste.
- Contact your local waste management authority for guidance on proper disposal methods.

Contact Information for Further Support

For any questions or concerns regarding the safety or installation of the MDT Scope Base Picatinny Rails, please refer to your local authorized dealer or the manufacturer's website for further assistance.

Thank you for your attention to these safety guidelines. Your safety is our priority, and we hope you enjoy using your MDT Scope Base Picatinny Rails.
