MDT's Scope Base Picatinny Rails are a precise and reliable solution when it comes to mounting a scope on your bolt action rifle.

MDT's Scope Base Picatinny Rails are designed to make the mounting of your optics easier. They are machined from 6061-T6 aluminum, then hard-anodized black for a durable finish. The underside of the rails are profiled to allow the rail to be mounted flush on the receiver and to match the geometry of the ejection port. These rails are designed with a 30 MOA incline providing additional elevation adjustment from your scope*. A recoil lug has been integrated in the underside rail profile on models where the action's design allows for this feature.

Safety Instructions for MDT Rails Tikka T3X

Introduction

Thank you for choosing MDT's Scope Base Picatinny Rails for your Tikka T3X rifle. This guide provides essential safety instructions and guidelines for the safe installation and use of this product. Please read this manual carefully to ensure proper usage and to maximize safety.

General Safety Guidelines

- Ensure that the product is suitable for your specific firearm model before installation.
- Always follow local laws and regulations regarding firearm modifications.
- Inspect the product for any damage or irregularities before use.
- Keep the product out of reach of children and unauthorized users.
- Use the product only for its intended purpose; do not modify it in any way.
- Report any unsafe conditions or accidents to the appropriate authorities.

Specific Safety Precautions for Use

- Always use appropriate eye and ear protection when handling firearms.
- Ensure that the rifle is unloaded before installing or adjusting the scope rail.
- When mounting the scope, ensure it is securely fastened to prevent movement during use.
- Regularly check the tightness of the screws and components to ensure they remain secure.
- Do not exceed the recommended weight limit for optics mounted on the rail.
- If you experience any issues during use, cease operation immediately and consult a qualified gunsmith.

Instructions for Installation and Usage

1. Preparation:

- Gather all necessary tools, including a torque wrench, screwdriver, and any other required equipment.
- Ensure the rifle is unloaded and pointed in a safe direction.

2. Installation Steps:

- Remove the existing scope base or rail if applicable.
- Clean the receiver area to remove any debris or old adhesive.
- Align the MDT Picatinny Rail with the mounting holes on the receiver.
- Insert the screws provided with the rail into the mounting holes.
- Use a torque wrench to tighten the screws to the manufacturer's recommended specifications, ensuring even pressure.

3. Mounting the Scope:

- Place the scope onto the Picatinny rail, ensuring it is positioned correctly for your shooting style.
- Secure the scope using the appropriate rings or mounts, following the manufacturer's instructions.
- Check the alignment of the scope to ensure it is level.

4. Final Check:

- After installation, doublecheck that all screws and components are secure.
- Perform a function check to ensure that the rifle operates correctly with the new rail and scope installed.

Disposal Instructions

- Dispose of any packaging materials in accordance with local regulations.
- If the product becomes damaged beyond repair, follow local guidelines for the disposal of aluminum products.
- Do not dispose of the product in regular household waste; consider recycling options if available.

Contact Information for Further Support

For any questions or concerns regarding the MDT Rails Tikka T3X, please refer to the manufacturer's website or contact your local dealer for assistance. Ensure you have the product details available for a more efficient response.

By following these safety instructions, you can enjoy a safe and effective experience with your MDT Scope Base Picatinny Rails. Always prioritize safety and ensure that you are knowledgeable about your equipment. Thank you for your attention to these important guidelines.
