Tactical Picatinny Brass Catcher 3.0

The Tactical Picatinny Brass Catcher 3.0 now features a robust CNC Aluminum mount, upgrading from the previous polymer design, ensuring greater stability and a longer lifespan. The 3.0 version retains all the beloved features of the original, including its efficient brass collection system, strong elastic cage, and convenient zipper for quick case disposal.

The Tactical Picatinny Brass Catcher is an effective way to avoid having to pick up your spent cases, the cases can also be used directly for reloading. The elastic cage of the case catcher is strong and large, and the brass handles do not distort the cage, so there will be no ejection errors or jamming. The zipper at the bottom of the lightweight brass case catcher is used to quickly empty the cases.

The Tactical Picatinny Brass Catcher is an innovative device specifically designed to keep your shooting environment clean and organized. The German Tactical Systems Brass Catcher is the perfect tool for any reloader or conscious shooter. The device is easy to mount and fits most firearms with a Picatinny or Weaver rail system. When the bag is full (100 rounds of .223) simply use the zipper on the bottom of the bag to empty the casings into your desired container and keep shooting.

Attributes

- Name: [Tactical Picatinny Brass Catcher 3.0](#)

Brass Catcher Tactical Picatinny Brass Catcher

3.0 Safety Instruction Guide

Introduction

Thank you for choosing the Tactical Picatinny Brass Catcher 3.0 by German Tactical Systems. This product is designed to enhance your shooting experience by providing an efficient way to collect spent brass casings. To ensure your safety and the longevity of the product, please read and follow this safety instruction guide carefully.

General Safety Guidelines

- Always use the product according to the manufacturer's instructions.
- Ensure that the brass catcher is securely mounted before use.
- Regularly inspect the brass catcher for any signs of wear or damage.
- Keep the brass catcher out of reach of children and unauthorized users.
- Report any unsafe conditions or product failures to the appropriate authorities.
- Check for recall updates on the EU's Safety Gate platform.

Specific Safety Precautions for Use

- Do not exceed the recommended capacity of the brass catcher (100 rounds of .223).
- Avoid using the brass catcher with firearms that are not compatible with Picatinny or Weaver rail systems.
- Ensure that the elastic cage is properly secured and not stretched beyond its limits to prevent malfunction.
- Do not attempt to modify or repair the brass catcher without consulting the manufacturer.
- Always wear appropriate eye and ear protection when shooting.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Locate the Picatinny or Weaver rail on your firearm.
- Align the CNC Aluminum mount of the brass catcher with the rail.
- Slide the mount onto the rail until it is securely in place. Ensure it is locked in position.

2. Usage:

- Confirm that the brass catcher is securely attached before shooting.
- As you fire, spent casings will collect in the elastic cage.
- Once the brass catcher is full (approximately 100 rounds of .223), use the zipper at the bottom to empty the casings into your desired container.
- After use, detach the brass catcher and store it in a cool, dry place.

Disposal Instructions

- Dispose of spent casings according to local regulations.
- If the brass catcher becomes damaged beyond repair, dispose of it in accordance with local waste management guidelines.
- Recycle materials when possible, following local recycling programs.

Contact Information for Further Support

For any inquiries related to safety, usage, or product support, please refer to the manufacturer's website or customer service resources.

By adhering to these guidelines, you can ensure a safe and enjoyable experience with your Tactical Picatinny Brass Catcher 3.0. Thank you for your attention to safety!
