

8,5-25x50 MilDot Scope

[Optics & Mounting](#) > [Scopes](#) > [Rifle Scopes](#)

The Falke riflescope of the TAC series is an absolute high-performance device and is particularly suitable for sport and military shooters in disciplines from 100-300 meters. Under these conditions, it is of course also suitable for use with large caliber weapons. It has a zoom range of 8.5-25 with a lens diameter of 50 centimeters.

The shooter gets a detailed image and can acquire his target most precisely. The body of the optics is made of a sturdy aluminum body, which is made of a casting and has an impact and scratch resistant surface. The scope is waterproof and has been filled with nitrogen to prevent fogging of the lenses. These are multi-coated using the latest technology, are scratch-resistant and have the highest light transmission. Side and elevation adjustments can be made via the turrets with 1/8 MOA per click.

Falke 8.525x50 MilDot Scope Safety Instruction Guide

Introduction

Thank you for choosing the Falke 8.525x50 MilDot Scope. This guide provides important safety instructions to ensure the safe and effective use of your riflescope. Please read this guide thoroughly before using the product to familiarize yourself with the necessary precautions and proper usage.

General Safety Guidelines

- Ensure that the scope is used only for its intended purpose.
- Always handle the scope with care to prevent damage.
- Keep the scope out of reach of children and vulnerable individuals.
- Regularly check the scope for any signs of wear or damage.
- If you notice any defects or issues, discontinue use immediately and seek assistance.
- Always follow local laws and regulations regarding the use of firearms and scopes.

Specific Safety Precautions for Use

- **Eye Protection:** Always wear appropriate eye protection when using firearms equipped with this scope.
- **Mounting:** Ensure the scope is securely mounted to the firearm to prevent accidental dislodgement during use.
- **Weather Conditions:** Avoid using the scope in extreme weather conditions that may affect visibility or safety.
- **Target Identification:** Always ensure you have positively identified your target before taking any shots.
- **Handling Firearms:** Always treat firearms as if they are loaded. Keep the muzzle pointed in a safe direction and keep your finger off the trigger until ready to shoot.

Instructions for Installation and Usage

1. Mounting the Scope:

- Select a suitable mounting base compatible with your firearm.
- Securely attach the scope to the mounting base, ensuring it is level and properly aligned.
- Tighten the mounting screws to the manufacturer's specifications.

2. Adjusting the Scope:

- Use the turrets to make side and elevation adjustments. Each click corresponds to 1/8 MOA.
- Adjust the zoom by rotating the magnification ring to achieve the desired level of magnification.

3. Focusing the Scope:

- Look through the scope and adjust the eyepiece until the reticle appears sharp and clear.
- If necessary, make additional adjustments to ensure a clear image of your target.

4. Using the Scope:

- Position yourself in a stable shooting stance.
- Align your eye with the eyepiece and acquire your target.
- Take a steady breath and squeeze the trigger gently to take your shot.

Disposal Instructions

- Dispose of the scope responsibly. Do not throw it in regular household waste.
- Follow local regulations regarding the disposal of optical devices and other electronic components.
- Consider recycling options if available in your area.

Contact Information for Further Support

For any inquiries regarding safety or product issues, please refer to the EU contact points available for your region.

Conclusion

Following these safety instructions will help ensure a safe and enjoyable experience with your Falke 8.525x50 MilDot Scope. Always prioritize safety and adhere to local laws and regulations when using firearms and related equipment. Thank you for choosing Falke.
