

DPMS AR-10 High Profil Forend Bipods - DPMS AR-10 High Profil 17" Forend Bipod

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

The BLK LBL Bipod's innovative barrel-through design allows the rifle to sit 'in' the bipod, rather than 'on' it, with the center of rotation of the bipod effectively centered on the bore, making it inherently more stable. The result is a balanced rifle without the top-heavy tendencies that can come from large optics. The ball and socket joint provide fluid movement for improved target acquisition and accuracy. With 40 degrees of pan and 15 degrees of cant in each direction, adjusting leg length to level your scope is a thing of the past.

When not deployed, the legs of the BLK LBL Bipod easily fold to the rear, flush with the hand guard. This means they won't catch on clothing, gear or branches when you're on the move, and won't interfere when shooting off hand, from a barricade, or even when storing your rifle.

Safety Instruction Guide for DPMS AR10 High Profile Forend Bipod

Introduction

Thank you for purchasing the DPMS AR10 High Profile 17" Forend Bipod. This guide provides important safety information and instructions to ensure the safe and effective use of your bipod. Please read this guide carefully before using the product.

General Safety Guidelines

- Always inspect the bipod for any signs of damage or wear before use. Do not use if any parts are damaged.
- Ensure that the bipod is securely attached to your rifle before use.
- Use the bipod only with compatible firearms as specified by the manufacturer.
- Keep the bipod away from children and unauthorized users.
- Do not exceed the weight limit specified by the manufacturer to avoid potential accidents.
- Be aware of your surroundings when using the bipod to prevent accidents or injuries.

Specific Safety Precautions for Use

- Ensure that the bipod legs are fully extended and locked in place before shooting.
- When adjusting the bipod, do so slowly to prevent sudden movements that could affect stability.
- Avoid using the bipod on unstable or uneven surfaces to maintain balance and control.
- When moving with the bipod, ensure that the legs are folded to prevent snagging on clothing or equipment.
- Always maintain proper shooting posture to ensure safety and accuracy while using the bipod.

Instructions for Installation and Usage

1. Installation

- Align the bipod mounting base with the attachment point on your rifle.
- Secure the bipod using the provided mounting hardware. Ensure it is tightly fastened.
- Check that the bipod is stable and does not wobble.

2. Usage

- To deploy the bipod, pull the legs down until they lock into place.
- Adjust the leg length as needed to level your rifle. Ensure the legs are securely locked before shooting.
- Use the ball and socket joint to pan and cant your rifle for improved target acquisition.
- After use, fold the bipod legs back to the rear, ensuring they are flush with the hand guard.

Disposal Instructions

- Dispose of the bipod in accordance with local regulations.
- If the bipod is damaged beyond repair, consider recycling the materials when possible.
- Do not dispose of the bipod in regular household waste.

Contact Information for Further Support

For any inquiries or concerns regarding the safety and use of the DPMS AR10 High Profile Forend Bipod, please consult the manufacturer's website or contact the customer service department directly.

Thank you for your attention to these safety instructions. Enjoy your shooting experience with the DPMS AR10 High Profile Forend Bipod!
