

DPMS AR-10 High Profil Forend Bipods - DPMS AR-10 High Profil 14" Forend Bipod

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipods](#)

The BLK LBL Bipod's innovative barrel-through design allows the rifle to sit 'in' the bipod, rather than 'on' it, with the center of rotation of the bipod effectively centered on the bore, making it inherently more stable. The result is a balanced rifle without the top-heavy tendencies that can come from large optics. The ball and socket joint provide fluid movement for improved target acquisition and accuracy. With 40 degrees of pan and 15 degrees of cant in each direction, adjusting leg length to level your scope is a thing of the past.

When not deployed, the legs of the BLK LBL Bipod easily fold to the rear, flush with the hand guard. This means they won't catch on clothing, gear or branches when you're on the move, and won't interfere when shooting off hand, from a barricade, or even when storing your rifle.

DPMS AR10 High Profile Forend Bipod Safety Instruction Guide

Introduction

Thank you for choosing the DPMS AR10 High Profile 14" Forend Bipod. This guide is designed to provide you with essential safety information and instructions for the proper use and maintenance of your bipod. Please read this guide carefully to ensure safe operation and to maximize your experience with the product.

General Safety Guidelines

- Ensure that the bipod is compatible with your rifle model before use.
- Always inspect the bipod for any signs of damage or wear before each use.
- Use the bipod only for its intended purpose: to stabilize your rifle during shooting.
- Keep the bipod and all accessories out of reach of children and unauthorized users.
- Be aware of your surroundings and ensure that you are in a safe location when using the bipod.
- Do not exceed the weight limit recommended by the manufacturer for the bipod.
- Always wear appropriate safety gear, including eye and ear protection, when shooting.

Specific Safety Precautions for Use

- When deploying the bipod, ensure that it is fully extended and locked in place before using.
- Do not place your hands or any other body parts in the path of the bipod legs when folding or unfolding.
- Avoid using the bipod on unstable or uneven surfaces to prevent tipping or falling.
- Be cautious of the bipod legs when moving through brush or heavy vegetation, as they may catch on obstacles.
- Always ensure that the rifle is unloaded when adjusting or installing the bipod.
- Do not modify the bipod or use it in a manner not specified by the manufacturer.

Instructions for Installation and Usage

1. Installation:

- Ensure that your rifle is unloaded and pointed in a safe direction.
- Attach the bipod to the forend of your rifle using the mounting system provided.
- Tighten all screws and fasteners securely to ensure stability.

2. Usage:

- Deploy the bipod by pulling the legs down until they lock into place.
- Adjust the leg length as needed to achieve a level shooting position.
- Use the ball and socket joint to adjust the angle of the rifle for improved target acquisition.
- When finished, fold the legs back into the stored position, ensuring they are flush with the hand guard.

Disposal Instructions

- Dispose of the bipod in accordance with local regulations regarding electronic and metal waste.
- Remove any batteries (if applicable) and dispose of them separately according to local guidelines.
- Do not dispose of the bipod in regular household waste.

Contact Information for Further Support

For any questions or concerns regarding the DPMS AR10 High Profile 14" Forend Bipod, please refer to the manufacturer's website or contact your retailer for assistance. Always ensure that you have the product model and serial number ready when seeking support.

By following these safety guidelines and instructions, you can ensure a safe and enjoyable experience with your DPMS AR10 High Profile Forend Bipod. Thank you for your attention to safety.
