

Bullet Feeder Conversion - X-10 9mm Bullet Feeder Conversion Kit

[Reloading](#) > [Reloading Presses](#) > [Progressive Presses](#)

Caliber conversion kits include everything needed to connect the X-10 Bullet Feeder Collator (sold separately) to the X-10 Progressive Reloading Press. Kits include a caliber-specific bullet collator plate, bullet feed and shuttle assembly, and a micrometer adjustable seating die. The bullet feed system is integrated seamlessly into the X-10 Tool Head to feed and seat bullets in the same station.

Safety Instruction Guide for Bullet Feeder Conversion X10 9mm Bullet Feeder Conversion Kit

Introduction

Thank you for choosing the Bullet Feeder Conversion X10 9mm Bullet Feeder Conversion Kit. This product is designed to enhance your reloading experience by providing a seamless integration with the X10 Progressive Reloading Press. It is important to follow the safety instructions outlined in this guide to ensure safe and effective use of the product.

General Safety Guidelines

- Always read and understand the entire instruction manual before using the product.
- Ensure that the product is used only for its intended purpose.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the product for any signs of wear or damage before use.
- If you encounter any issues or have safety concerns, discontinue use immediately and seek assistance.

Specific Safety Precautions for Use

- Do not attempt to modify or alter the product in any way.
- Always wear appropriate safety gear, including eye protection, when operating the reloading press and bullet feeder.
- Ensure that the work area is clean and free of any obstructions before starting the reloading process.
- Use only caliber-specific components compatible with the Bullet Feeder Conversion Kit.
- Follow all local laws and regulations regarding ammunition reloading and safety.

Instructions for Installation and Usage

Installation

1. Unbox the Bullet Feeder Conversion Kit and verify that all components are included:
 - Caliber-specific bullet collator plate
 - Bullet feed and shuttle assembly
 - Micrometer adjustable seating die
2. Ensure the X10 Progressive Reloading Press is turned off and unplugged.
3. Attach the bullet collator plate to the collator section of the X10 Bullet Feeder.
4. Connect the bullet feed and shuttle assembly according to the provided diagrams.
5. Adjust the micrometer seating die to your desired specifications.

Usage

1. Load the bullet collator with the appropriate caliber bullets.
2. Power on the X10 Progressive Reloading Press and ensure it is functioning correctly.
3. Begin the reloading process, monitoring the bullet feed system for any irregularities.
4. If a jam or malfunction occurs, stop the operation immediately and address the issue before continuing.
5. After use, turn off and unplug the reloading press.

Disposal Instructions

- Dispose of packaging materials in accordance with local recycling regulations.

- If the product reaches the end of its life, dispose of it in a manner that complies with local environmental regulations.
- Do not dispose of the product in regular household waste. Check for designated disposal sites for electronic and mechanical components.

Contact Information for Further Support

For any inquiries regarding safety concerns, product issues, or additional support, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

By following the safety instructions in this guide, you can ensure a safe and effective reloading experience with the Bullet Feeder Conversion X10 9mm Bullet Feeder Conversion Kit. Always prioritize safety and stay informed about best practices in ammunition reloading. Thank you for your attention to these important safety guidelines.
