

## Bench-Rest-Seater 7/8 - Bench-Rest-Seater 7mm BR Rem

[Reloading](#) > [Reloading Dies](#) > [Rifle Dies](#)

The BR-Seater is your reliable partner for highest precision in seating match bullets, or whenever in questions of “bullet runout”, there is no room for compromise.

Thanks to the guide sleeve which is modelled like the cartridge chamber, the cartridge case will receive perfect axial guidance during the seating operation.

Also, the bullet will be guided in the same process.

This ensures perfect concentricity. Of course, the seater-head is replaceable. Various types of seater-heads are offered.

Choosing the correct seater head for the bullet used often improves concentricity significantly. You will find further instructions and assistance in selecting accessories and spare parts in the manual.

# BenchRestSeater 7/8 BenchRestSeater 7mm BR Rem Safety Instructions

## Introduction

Thank you for choosing the BenchRestSeater 7/8 BenchRestSeater 7mm BR Rem. This product is designed to provide the highest precision in seating match bullets, ensuring optimal performance for your reloading needs. Please read this safety instruction guide carefully to ensure safe and effective use of the product.

## General Safety Guidelines

- Always ensure that the BenchRestSeater is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Inspect the BenchRestSeater for any visible damage before use. Do not use if damaged.
- Use the product only for its intended purpose; do not modify or alter it in any way.
- Store the BenchRestSeater in a dry and safe location when not in use.
- Report any unsafe product incidents or accidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the work area is clean and free from distractions when using the BenchRestSeater.
- Always wear appropriate safety gear, such as safety glasses, when handling ammunition and reloading equipment.
- Be mindful of potential hazards associated with handling ammunition, including the risk of accidental discharge.
- Ensure that the seaterhead is securely attached before use to avoid accidents.
- Do not exceed the recommended seating depth for bullets as specified by the bullet manufacturer.
- Use only compatible seaterheads for the specific bullets being used to improve concentricity and reduce risk.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the BenchRestSeater is placed on a stable and level surface.
- Attach the appropriate seaterhead by following these steps:
  - Align the seaterhead with the mounting point on the BenchRestSeater.
  - Securely fasten the seaterhead until it is firmly in place.

### 2. Usage:

- Prepare your cartridge case and bullet according to standard reloading practices.
- Insert the cartridge case into the BenchRestSeater's guide sleeve.
- Carefully position the bullet into the cartridge case.
- Apply steady pressure to the seaterhead to seat the bullet into the cartridge case.
- Check the bullet runout using a runout gauge to ensure precision.
- Repeat the process for additional cartridges as needed.

## Disposal Instructions

- Dispose of the BenchRestSeater and any associated components according to local regulations.
- Do not dispose of the product in household waste. Check for local recycling programs or hazardous waste disposal options.

## **Contact Information for Further Support**

For any questions or additional support regarding the BenchRestSeater, please consult the product manual or reach out to the manufacturer directly.

## **Conclusion**

By following these safety instructions, you can ensure a safe and effective experience with your BenchRestSeater. Always prioritize safety and adhere to the guidelines provided to maximize the performance of your reloading activities. Thank you for choosing our product, and happy reloading!
