Bullet Seater with crimp (Seat)

Our standard bullet seaters guide the bullet in an exact guide bushing. This ensures good accuracy.

The Bullet Seater is the solid choice for quickly seating the bullet.

As standard, the Bullet Seater offers the option to crimp the mouth of the cartridge case. This means that you can work with or without a crimp.

The seater-head can be easily replaced to another type. We offer various types of seater-heads.

Choosing the correct seater head for the bullet used often improves concentricity significantly.

You will find further instructions and assistance in selecting accessories and spare parts in the manual.

Safety Instruction Guide for Seater with Crimp 1 1/4

Introduction

Thank you for choosing the Seater with Crimp 1 1/4. This product is designed to provide a reliable and effective solution for bullet seating in your reloading process. To ensure safe and efficient use, please read this guide carefully and follow all safety instructions.

General Safety Guidelines

- Always handle the Seater with Crimp with care to avoid accidents.
- Keep the product out of reach of children and vulnerable individuals.
- Ensure that you are using the product in a wellventilated area.
- Wear appropriate safety gear, including safety glasses and gloves, while using the product.
- Regularly inspect the product for any signs of wear or damage before use.
- Store the product in a cool, dry place to prevent deterioration.

Specific Safety Precautions for Use

- Ensure that the bullet seating operation is performed in a stable and secure environment.
- Do not exceed the recommended seating depth for the bullet being used.
- Always check the compatibility of the seaterhead with the bullet type to ensure proper seating.
- Avoid placing fingers near the seating area during operation to prevent injury.
- If you experience any difficulties while using the product, stop immediately and consult the manual for troubleshooting.

Instructions for Installation and Usage

1. Installation of the Seater Head:

- Ensure the product is disconnected from any power source.
- Remove the existing seaterhead by unscrewing it from the main unit.
- Select the appropriate seaterhead for your bullet type.
- Attach the new seaterhead by screwing it securely into place.

2. Using the Seater with Crimp:

- Place the cartridge case in the designated area of the seater.
- Insert the bullet into the cartridge case.
- Adjust the seating depth according to your specifications.
- Engage the crimp feature if required by turning the designated knob.
- Firmly press down on the handle to seat the bullet properly.
- Inspect the cartridge to ensure proper seating and crimping.

3. PostUse Maintenance:

- Clean the seater regularly to remove any debris or residue.
- Check all components for wear and replace if necessary.
- Store the product in its original packaging or a protective case when not in use.

Disposal Instructions

- Dispose of the Seater with Crimp according to local regulations.
- Do not dispose of the product in general household waste.
- Consider recycling options where available to minimize environmental impact.

Contact Information for Further Support

For any inquiries related to safety or product support, please refer to the manufacturer's contact information provided in the product manual or packaging.

By following these guidelines, you can ensure a safe and effective experience with your Seater with Crimp 1 1/4. Thank you for your attention to safety, and happy reloading!
