AVAILABLE

Equipped with quick-detach levers, it enables fast and effortless mounting and removal without requiring any tools, ensuring convenience and reliability during every use. The mount also includes an optional Picatinny rail attachment, which can be fixed to one of the clamping rings or mounted at a 45° offset on either side. This added flexibility allows for the integration of reflex sights, enhancing your setup's versatility.

With a construction height of 17 mm and secured by twelve M4x10 screws, the Schmeisser SM mount delivers exceptional stability. Manufactured from high-strength, hard-anodized aluminum in a sleek matte black finish, it meets NATO standard 4694 specifications for top-tier performance.

Developed in Germany, the Schmeisser SM Quick-Detach Offset Mount upholds the highest standards of quality and precision, making it an ideal choice for demanding professionals and enthusiasts alike.

Safety Instruction Guide for SM Scope Mount SCH38 SM34

Introduction

Thank you for purchasing the SM Scope Mount SCH38 SM34. This guide provides essential safety instructions to ensure the safe and effective use of your scope mount. Please read this document carefully before installation and usage.

General Safety Guidelines

- Always ensure that the scope mount is compatible with your firearm and optics.
- Inspect the scope mount for any damage or defects before use. Do not use if damaged.
- Ensure the mount is securely attached before handling or firing your firearm.
- Keep the scope mount and all related accessories out of reach of children.
- Follow all local laws and regulations regarding firearm accessories.

Specific Safety Precautions for Use

- Avoid using the scope mount under extreme conditions (e.g., excessive heat, moisture, or physical stress).
- Do not attempt to modify the scope mount in any way, as this may compromise its integrity and safety.
- Always use the quickdetach levers as instructed, ensuring they are fully engaged before use.
- If you notice any unusual movement or looseness during use, cease operation immediately and inspect the mount.
- Regularly check the tightness of the screws and connections to ensure stability during use.

Instructions for Installation and Usage

1. Installation:

- Ensure you have the following tools ready: a clean cloth, and if necessary, a torque wrench (not required for toolfree operation).
- Clean the firearm's rail surface where the mount will be attached.
- Position the mount on the rail, ensuring the clamping rings align correctly with the rail.
- Engage the quickdetach levers to secure the mount. Ensure they are fully locked.
- If using the optional Picatinny rail attachment, follow the manufacturer's instructions for installation.

2. Usage:

- Once installed, check the mount's stability by gently shaking it. There should be no movement.
- Mount your scope according to the manufacturer's specifications.
- Confirm that the scope is securely attached and properly aligned before firing.
- Always verify that the mount and scope are functioning correctly after installation and before use.

Disposal Instructions

- Dispose of the SM Scope Mount SCH38 SM34 in accordance with local regulations.
- If the product is no longer usable, consider recycling it where possible.
- Do not dispose of the product in general waste if it contains materials that can be recycled.

Contact Information for Further Support

For any inquiries related to safety or product performance, please contact the manufacturer through the provided channels. It is essential to have your purchase details ready for reference.

Conclusion

By following these safety instructions, you can ensure the proper use and longevity of your SM Scope Mount SCH38 SM34. Always prioritize safety and compliance with local regulations when using firearm accessories. Thank you for choosing our product.
