## Keep It Dry. Keep It Ready.

The **Gear Dehumidifier** is your compact and reliable solution for protecting firearms, ammunition, and gear from moisture damage. Designed to prevent rust, corrosion, and mold, it excels at keeping firearms in safes dry but is also perfect for ammo cans, vehicles, and gear bags. Its reusable silica gel technology ensures long-term use, while the color-changing wing indicator makes recharging simple turning pink when moisture absorption is full and ready to be recharged.

# Gear Dehumidifier Safety Instructions

## Introduction

Thank you for choosing the Gear Dehumidifier. This product is designed to protect your firearms, ammunition, and gear from moisture damage. To ensure safe and effective use, please read and follow the safety instructions outlined in this guide.

## General Safety Guidelines

- **Product Safety:** Ensure safe use of the Gear Dehumidifier by following all instructions provided. This product is designed to minimize risks associated with moisture damage.
- **Enhanced Recalls:** Be aware that in the event of a safety issue, standardized recall notices will be issued. You can seek free remedies for any dangerous products.
- **Online Shopping:** If purchased online, remember that the same safety protections apply as in physical stores. Ensure that the seller meets safety requirements.
- **Special Consumer Focus:** Extra precautions should be taken for vulnerable groups, such as children. Keep the product out of reach of children to prevent misuse.
- **EU Contact Point:** This product is supported by an EU-based contact for any safety inquiries. Please refer to the product packaging or documentation for the contact information.
- **Rapid Alerts:** Stay informed about any unsafe products by checking updates via the EU's Safety Gate platform.

## Specific Safety Precautions for Use

- **Do not expose the Gear Dehumidifier to water or other liquids.** It is not waterproof and may become damaged if submerged.
- **Use only as intended:** This product is specifically designed for moisture absorption in firearms, ammunition, and gear. Do not use it for any other purpose.
- **Monitor the recharge indicator:** The color-changing wing indicator will turn pink when moisture absorption is full. Recharge the product promptly to maintain effectiveness.
- **Avoid direct sunlight and heat sources:** Keep the Gear Dehumidifier away from direct sunlight, heaters, or other sources of heat to prevent damage.
- **Store in a cool, dry place when not in use:** Ensure that the product is stored in a place where it will not be exposed to excessive moisture or heat.

## Instructions for Installation and Usage

### 1. Placement:

- Place the Gear Dehumidifier in a dry, enclosed area, such as a safe, ammo can, vehicle, or gear bag.
- Ensure that the product has adequate space for air circulation to maximize moisture absorption.

### 2. Recharging:

- When the recharge indicator turns pink, it is time to recharge the Gear Dehumidifier.
- Follow these steps for recharging:
  - Remove the Gear Dehumidifier from its location.
  - Place it in an oven at a low temperature (typically around 50°C or 122°F) for approximately 12 hours. Ensure that it is placed on a heat-safe surface.
  - Allow it to cool before reinserting it into the designated area.

### 3. Regular Monitoring:

- Check the condition of the Gear Dehumidifier regularly to ensure it is functioning properly.
- Replace the product if it shows signs of damage or if the recharge indicator does not return to its original color after recharging.

## **Disposal Instructions**

- Dispose of the Gear Dehumidifier in accordance with local regulations regarding electronic waste and silica gel products.
- Do not incinerate or expose the product to high temperatures during disposal.
- If the product is damaged or no longer usable, contact your local waste management authority for proper disposal methods.

## **Contact Information for Further Support**

For any questions or concerns regarding the Gear Dehumidifier, please refer to the contact information provided on the product packaging or documentation. It is important to reach out for assistance if you encounter any issues or have safety inquiries.

Thank you for your attention to these safety instructions. By following these guidelines, you can ensure the effective and safe use of your Gear Dehumidifier.
