

Ballistic Sunglasses - Bronze Mirror

[Shooting Accessories](#) > [Ear & Eye Protection](#) > [Shooting Glasses](#)

The GTS Ballistic Sunglasses combine certified eye protection with a classic, everyday sunglass design. Built for shooters, outdoor users, and professionals who require both safety and style, they deliver dependable impact resistance without the aggressive look of traditional range eyewear.

The lenses are manufactured from ballistic-resistant material designed to withstand high-speed impacts and are certified to EN 166 CE, meeting European standards for protective eyewear.

Due to the traditional sunglass frame design and lateral construction, the glasses do not carry the additional "F" marking. However, the ballistic lens material provides reliable impact protection comparable to dedicated shooting eyewear, making them suitable for demanding environments while remaining comfortable for daily wear.

All lens variants feature a high-quality Revo mirror coating, reducing glare and enhancing visual clarity in bright conditions. This improves contrast, minimizes eye fatigue, and ensures comfortable vision during extended outdoor use.

Available lens options:

- Smoke Graphite: Ideal for strong sunlight and bright outdoor environments
- Blue Mirror: Designed for glare-heavy conditions and reflective surfaces
- Bronze Mirror: Enhances contrast and depth perception in variable light

The result is a protective performance sunglass that offers certified safety, ballistic-capable lenses, and a clean, versatile look suitable for both the range and everyday life.

Ballistic Sunglasses Safety Instruction Guide

Introduction

Thank you for choosing the GTS Ballistic Sunglasses. These sunglasses provide certified eye protection while maintaining a stylish design suitable for everyday use. This guide is designed to ensure your safety and the proper use of the product in compliance with the EU General Product Safety Regulation (GPSR).

General Safety Guidelines

- Always inspect the sunglasses for any damage before use. Do not use if there are visible defects.
- Ensure the sunglasses fit properly to provide optimal protection and comfort.
- Use the sunglasses only for their intended purpose; they are designed for outdoor activities and shooting environments.
- Keep the sunglasses out of reach of children to prevent accidental injury.
- Report any unsafe products or accidents to the relevant authorities.

Specific Safety Precautions for Use

- **Impact Resistance:** While the lenses are made from ballistic-resistant material, they are not indestructible. Avoid exposing the sunglasses to extreme impacts.
- **Lateral Protection:** The frame design does not carry the additional "F" marking, which indicates enhanced lateral protection. Use caution in environments with potential side impacts.
- **Lens Care:** Clean the lenses with a soft, lint-free cloth. Avoid using abrasive materials that may scratch the lens surface.
- **Environmental Conditions:** Be aware of your surroundings and avoid using the sunglasses in conditions that could compromise your safety.

Instructions for Installation and Usage

1. Fitting the Sunglasses:

- Place the sunglasses on your face and adjust the arms to ensure a snug fit without discomfort.
- The sunglasses should rest comfortably on your nose and ears.

2. Using the Sunglasses:

- Wear the sunglasses in bright sunlight or glare-heavy conditions to protect your eyes and enhance visual clarity.
- Choose the appropriate lens option based on your environment:
 - **Smoke Graphite:** For strong sunlight and bright outdoor environments.
 - **Blue Mirror:** For glare-heavy conditions and reflective surfaces.
 - **Bronze Mirror:** For enhanced contrast and depth perception in variable light.

3. Storage:

- Store the sunglasses in a protective case when not in use to prevent scratches and damage.
- Keep the sunglasses away from high temperatures and direct sunlight for extended periods.

Disposal Instructions

- Dispose of the sunglasses in accordance with local regulations for electronic waste and plastic products.
- Do not dispose of the sunglasses in regular household waste. Check for designated recycling facilities in your area.
