

Chronographs Replacement Parts - V3 Display with battery

[Shooting Accessories](#) > [Range Gear](#) > [Chronographs](#)

The MagnetoSpeed V3 ballistic chronograph kit was designed to be used on barrels and suppressors from 1/2 inch all the way up to 2 inches in diameter. In addition to the larger diameter tolerance, the V3 also has one inch more clearance in the blast zone to account for longer (up to 3" in most cases) muzzle brakes, flash hiders, etc.

Chronographs Replacement Parts V3 Display with Battery Safety Instruction Guide

Introduction

Thank you for choosing the MagnetoSpeed V3 ballistic chronograph kit. This guide provides important safety information and instructions to ensure safe and effective use of your chronograph. Please read this guide carefully before installation and usage.

General Safety Guidelines

- Ensure safe use of the chronograph by following these guidelines:
 - Always operate the chronograph in accordance with the instructions provided.
 - Keep the chronograph out of reach of children and vulnerable individuals.
 - Regularly inspect the device for any signs of damage or wear.
 - Use the product only for its intended purpose as specified in this guide.
 - Be aware of your surroundings and ensure that the area is clear of obstructions and hazards.

Specific Safety Precautions for Use

- When using the chronograph, please observe the following precautions:
 - Avoid using the chronograph in wet or damp conditions to prevent electrical hazards.
 - Do not modify or attempt to repair the chronograph without professional assistance.
 - Ensure that the chronograph is securely mounted and stable during use to prevent accidents.
 - Be mindful of the blast zone; maintain a safe distance from the muzzle and any attached accessories.
 - Use appropriate eye and ear protection when operating firearms in conjunction with the chronograph.

Instructions for Installation and Usage

- Follow these steps for proper installation and usage of the chronograph:

1. Installation:

- Select a suitable location for the chronograph that is stable and free from obstructions.
- Mount the chronograph securely on barrels or suppressors ranging from 1/2 inch to 2 inches in diameter.
- Ensure that there is at least one inch of clearance in the blast zone for longer muzzle devices.

2. Usage:

- Before using the chronograph, ensure that it is fully charged and operational.
- Align the chronograph according to the manufacturer's guidelines to ensure accurate readings.
- Start the chronograph before firing to capture the projectile's speed effectively.
- Review the readings displayed on the chronograph after each use for accuracy.

Disposal Instructions

- Dispose of the chronograph and its components responsibly:
 - Do not dispose of the chronograph in regular household waste.
 - Follow local regulations for electronic waste disposal.
 - Remove batteries from the device before disposal and recycle them according to local guidelines.

Contact Information for Further Support

- For further assistance and inquiries regarding safety, please refer to the contact point provided with your product packaging.

Conclusion

By adhering to these safety guidelines and instructions, you can ensure a safe and effective experience with your MagnetoSpeed V3 ballistic chronograph kit. Always prioritize safety and remain informed about any updates or recalls related to your product. Thank you for your attention to safety.
