

# Target Hit Indicators - MagnetoSpeed T1000, Target Mounted Hit Indicator

[Shooting Accessories](#) > [Targets & Accessories](#) > [Target Accessories](#)

The T1000 Gen 2 is a rugged target hit indicator featuring a weather-resistant housing and an exceptionally long battery life. It is designed to mount on the rear of AR500 steel targets with a width of 10 inches or greater. Once installed, the unit remains in an always-on state, ready to register the next impact.

The Flexprism rubber reflector is engineered to withstand repeated hits before needing replacement. Preparing a target for the T1000 is fast and simple, and the system can easily be transferred between multiple targets using standard industrial hook-and-loop fasteners.

# Target Hit Indicators MagnetoSpeed T1000 Safety Instruction Guide

## Introduction

Thank you for choosing the Target Hit Indicators MagnetoSpeed T1000. This guide provides essential safety instructions and information to ensure the safe use and handling of your product. Please read this guide carefully before installation and use to maximize safety and performance.

## General Safety Guidelines

- Always ensure that the T1000 is used in accordance with the manufacturer's instructions.
- Keep the product out of reach of children and vulnerable individuals.
- Regularly inspect the T1000 for any signs of damage or wear before each use.
- Avoid using the product in extreme weather conditions that may compromise its functionality.
- Report any unsafe conditions or incidents to the appropriate authorities.

## Specific Safety Precautions for Use

- Ensure that the target is securely mounted and stable before use.
- Do not attempt to modify or repair the T1000 yourself. Contact the manufacturer for assistance.
- Use only the recommended batteries for the T1000 to avoid malfunction or hazards.
- Be aware of your surroundings and ensure a safe shooting environment when using the T1000.
- Always wear appropriate eye and ear protection when shooting.

## Instructions for Installation and Usage

### 1. Installation:

- Ensure the target is made of AR500 steel and has a minimum width of 10 inches.
- Use standard industrial hookandloop fasteners to securely attach the T1000 to the rear of the target.
- Confirm that the unit is in an alwayson state before proceeding.

### 2. Usage:

- Download the T1000 Tuner app from the iOS or Android store.
- Connect the app to the T1000 using the audio interface for configuration.
- Adjust sensitivity settings as needed to suit your shooting environment.
- Choose from the three game modes available for enhanced engagement.
- Monitor battery life and replace batteries as necessary to ensure continuous operation.

## Disposal Instructions

- Follow local regulations for disposing of electronic waste.
- Remove batteries before disposing of the T1000 to prevent environmental contamination.
- If the product is damaged beyond repair, ensure it is disposed of safely and responsibly.

## Contact Information for Further Support

For any questions, concerns, or support related to the T1000, please refer to the contact information provided by the manufacturer. Ensure you have the product details ready for quicker assistance.

Thank you for following these safety guidelines. Your safety is our priority, and we hope you enjoy using the Target Hit Indicators MagnetoSpeed T1000.
