The GTS Laser-Cut Leaves (12 pcs) are designed to enhance camouflage by adding structure, depth, and irregularity to your equipment. Effective concealment is not just about color - it's about breaking up recognizable shapes and hard outlines. These modular leaves help you do exactly that.

The set includes 12 individually laser-cut leaves, each manufactured from durable, field-ready fabric with precise organic contours. When attached to MOLLE platforms, camouflage nets, tripods, shelters, plate carriers, or backpacks, they disrupt straight lines and reduce the technical appearance of your gear in natural terrain.

Lightweight yet abrasion-resistant, the material maintains flexibility in varying temperatures and withstands demanding outdoor conditions. The leaves can be positioned individually to create a customized camouflage pattern, allowing you to increase density in critical areas or layer them over existing camouflage systems for additional depth and realism.

The GTS Laser-Cut Leaves (12 pcs) are available in Flecktarn and Stone Grey Olive, ensuring seamless integration with your existing equipment and environment.

Modular. Adaptable. Effective.

Specific Safety Precautions for Use

- **Hazard Identification:**
 - The product is not a toy. Keep it away from children and pets.
 - Ensure that the attachment points do not interfere with the operation of other equipment.
- **Avoiding Hazards:**
 - Do not use the product in conditions that exceed its material limits, such as extreme temperatures or excessive abrasion.
 - Ensure that the lasercut edges are not exposed to skin during handling to avoid cuts.
- **Age Specific Warnings:**
 - This product is intended for adult users only. Ensure that minors do not handle or use the product without adult supervision.

Instructions for Installation and Usage

- **Installation:**
 1. Identify the attachment points on your gear (e.g., MOLLE platforms, backpacks).
 2. Align the lasercut leaves with the desired attachment points.
 3. Secure the leaves using appropriate fastening methods (e.g., clips, Velcro).
 4. Ensure that each leaf is securely attached and does not obstruct any operational features of your gear.
- **Usage:**
 - Position the leaves to create a customized camouflage pattern based on your environment.
 - Adjust the density of leaves in critical areas to enhance concealment.
 - Layer the leaves over existing camouflage systems for added depth and realism.
- **Maintenance:**
 - Regularly check the attachment points and the condition of the leaves.
 - Clean the leaves with a damp cloth to remove dirt or debris, and allow them to air dry completely.

Disposal Instructions

- Dispose of the product in accordance with local regulations for fabric and textile waste.
- If the product is damaged beyond repair, ensure that it is disposed of in a manner that prevents any potential harm to the environment.
