

Tripod Field Rig - Stone Grey Olive

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipod Accessories](#)

The GTS Tripod Field Rig is designed for users who want to carry their tripod as part of an integrated system - not as an afterthought. Built for mobility and adaptability, it combines transport solution, load-bearing platform, and shooting support in one purpose-driven design.

Primarily configured as a dedicated tripod backpack, the Field Rig allows secure and balanced transport over longer distances. The reinforced carrying system keeps the tripod stable and close to the body, reducing movement and improving comfort during approach or repositioning.

For more compact or vehicle-based operations, the Field Rig can also be carried as a shoulder bag. In addition, its MOLLE-compatible exterior allows it to be mounted directly onto a plate carrier or other MOLLE platforms, integrating seamlessly into existing load-bearing setups. This makes it equally suited for hunting, precision competition, and professional field applications.

Beyond transport, the Field Rig unfolds into a functional shooting mat. Once deployed, it provides a clean and durable surface for prone shooting positions, protecting both shooter and equipment from moisture, dirt, and rough terrain. This dual-purpose design eliminates the need to carry separate gear, reducing overall load while increasing efficiency.

Constructed from durable, abrasion-resistant materials and designed with reinforced stitching throughout, the GTS Tripod Field Rig is built for demanding environments where reliability matters.

One system. Multiple roles. No unnecessary gear.

GTS Tripod Field Rig Safety Instructions

Introduction

Thank you for choosing the GTS Tripod Field Rig Stone Grey Olive. This safety instruction guide is designed to ensure the safe use of your product while complying with the EU General Product Safety Regulation (GPSR). Please read this guide carefully before using the Tripod Field Rig to understand how to use it safely and effectively.

General Safety Guidelines

- Ensure that the product is used only for its intended purpose as a tripod carrying system.
- Regularly inspect the Tripod Field Rig for any signs of wear or damage before each use.
- Keep the product out of reach of children and vulnerable individuals unless they are supervised by an adult.
- Do not use the Tripod Field Rig in extreme weather conditions unless it is specifically designed for such environments.
- Be aware of your surroundings when using the Tripod Field Rig, especially in outdoor settings to avoid accidents.

Specific Safety Precautions for Use

- **Stability:** Always ensure the tripod is securely fastened within the rig before transport to prevent it from falling or shifting.
- **Weight Limit:** Do not exceed the recommended weight limit for the rig to maintain balance and stability during use.
- **Transport:** When carrying the rig, ensure that it is close to your body to reduce the risk of losing balance or falling.
- **Shooting Mat Use:** When deploying the shooting mat, ensure it is laid flat and free from debris to avoid injury or damage to equipment.
- **Moisture Protection:** If using the rig in wet conditions, ensure that the equipment is adequately protected to prevent water damage.

Instructions for Installation and Usage

1. Initial Setup:

- Carefully unpack the Tripod Field Rig and inspect all components for any damage.
- Familiarize yourself with the rig's features, including the carrying system and MOLLEcompatible exterior.

2. Attaching the Tripod:

- Place the tripod securely into the designated compartment of the rig.
- Use the provided straps to fasten the tripod in place, ensuring it is snug and secure.

3. Carrying the Rig:

- Adjust the shoulder straps for a comfortable fit.
- Ensure that the rig is balanced and close to your body while walking or moving.

4. Using the Shooting Mat:

- To deploy the shooting mat, unfasten it from the rig and lay it flat on the ground.

- Ensure the surface is clear of obstacles before lying on the mat.

5. Repacking:

- After use, carefully pack the tripod back into the rig, ensuring all straps are secured.
- Store the rig in a cool, dry place when not in use.

Disposal Instructions

- Dispose of the GTS Tripod Field Rig responsibly by following local regulations for product disposal.
- If the product is damaged beyond repair, consider recycling materials where possible.

Contact Information for Further Support

For any safety inquiries or product support, please reach out to the designated EU contact point associated with this product. Ensure you have the product details available for reference.

By following these safety instructions, you can ensure a safe and enjoyable experience with your GTS Tripod Field Rig. Thank you for your attention to safety, and enjoy your outdoor activities!
