

Tripod Field Rig - Flecktarn

[Shooting Accessories](#) > [Bipods, Monopods & Accessories](#) > [Bipod Accessories](#)

The GTS Tripod Field Rig is designed for users who want to carry their tripod as part of an integrated system - not as an afterthought. Built for mobility and adaptability, it combines transport solution, load-bearing platform, and shooting support in one purpose-driven design.

Primarily configured as a dedicated tripod backpack, the Field Rig allows secure and balanced transport over longer distances. The reinforced carrying system keeps the tripod stable and close to the body, reducing movement and improving comfort during approach or repositioning.

For more compact or vehicle-based operations, the Field Rig can also be carried as a shoulder bag. In addition, its MOLLE-compatible exterior allows it to be mounted directly onto a plate carrier or other MOLLE platforms, integrating seamlessly into existing load-bearing setups. This makes it equally suited for hunting, precision competition, and professional field applications.

Beyond transport, the Field Rig unfolds into a functional shooting mat. Once deployed, it provides a clean and durable surface for prone shooting positions, protecting both shooter and equipment from moisture, dirt, and rough terrain. This dual-purpose design eliminates the need to carry separate gear, reducing overall load while increasing efficiency.

Constructed from durable, abrasion-resistant materials and designed with reinforced stitching throughout, the GTS Tripod Field Rig is built for demanding environments where reliability matters.

One system. Multiple roles. No unnecessary gear.

Attributes

Tripod Field Rig Safety Instructions

Introduction

Thank you for choosing the GTS Tripod Field Rig Flecktarn. This safety instruction guide is designed to help you use the product safely and effectively. Please read this guide carefully before using the Tripod Field Rig to ensure safe operation and compliance with EU safety regulations.

General Safety Guidelines

- Always inspect the Tripod Field Rig before use for any signs of wear or damage.
- Ensure that the rig is properly adjusted and secured before carrying or using it.
- Use the product only for its intended purpose as described in this guide.
- Keep the product out of reach of children and vulnerable individuals.
- Report any unsafe conditions or accidents to the appropriate authorities.
- Stay informed about product recalls and safety updates via the EU's Safety Gate platform.

Specific Safety Precautions for Use

- When using the Tripod Field Rig in outdoor environments, be aware of your surroundings and potential hazards such as uneven terrain, wet surfaces, or extreme weather conditions.
- Ensure that the tripod is securely positioned on stable ground to prevent tipping or falling.
- Avoid overloading the rig beyond its intended capacity, which may compromise stability and safety.
- When transitioning from carrying to shooting positions, ensure that the rig is fully deployed and stable before use.
- If using the rig in combination with other equipment, ensure compatibility and secure attachment to prevent accidents.

Instructions for Installation and Usage

1. Initial Setup

- Unpack the Tripod Field Rig and lay it flat on a clean, dry surface.
- Ensure all components are included and in good condition before proceeding.

2. Adjusting the Carrying System

- Adjust the shoulder straps to fit comfortably on your body.
- Ensure the carrying system is secure and the tripod is stable against your back.

3. Using as a Backpack

- Place the tripod securely inside the designated compartment.
- Tighten all straps to ensure the tripod is held firmly in place.
- Carry the rig on your back, adjusting the straps as necessary for comfort.

4. Using as a Shoulder Bag

- Detach the shoulder straps from the backpack configuration.
- Attach the straps to the designated points for shoulder carry.
- Ensure the tripod is secured within the bag and carry it on your shoulder.

5. Deploying the Shooting Mat

- Find a suitable location for shooting, ensuring it is safe and clear of obstacles.

- Unfold the Field Rig to lay it flat on the ground.
- Ensure that the surface is clean and free of debris before using it for shooting.

6. PostUse Care

- After using the Tripod Field Rig, clean it according to the manufacturer's instructions.
- Store the rig in a dry and safe location to prevent damage.

Disposal Instructions

- Dispose of the Tripod Field Rig in accordance with local regulations for durable goods.
- Do not dispose of the product in regular household waste.
- Consider recycling options for materials where applicable.

Contact Information for Further Support

For any questions or concerns regarding the safety or use of the GTS Tripod Field Rig, please contact your local retailer or the manufacturer directly. They will provide you with the necessary assistance and support.

Thank you for your attention to these safety guidelines. Enjoy using your GTS Tripod Field Rig Flecktarn safely and effectively!
