The MDT ACC Elite is built for one purpose: winning matches. As the #1 chassis in the PRS and the choice of thousands of competitors worldwide, its reputation is backed by countless podium finishes. This platform provides the balance, stability, and control needed to run complex stages efficiently and deliver consistent hits under extreme pressure.

The ACC Elite is designed to stay rigid when it matters most. Featuring a strengthened forend, a solid center base, and a dedicated connector bar linking the grip to the buttstock, this chassis eliminates twisting and bending during recoil or when loading into a prop.
